ROBERT NICOLE MORADA

Toronto, ON M4H 1J8
(416) 826-5127 ● rmorada2@my.centenialcollege.ca

JUNIOR DEVELOPER

Java & C# ● UI/UX Design ● Problem Solving

HIGHLIGHT OF SKILLS

- A software engineering student focused on core programming logic while bringing a strong eye for intuitive UI/UX Design
- Experienced in C#, Java, SQL, HTML, CSS, JavaScript, Python
- Hands-on experience with Unity for game development, alongside 2D/3D asset creation and modeling in blender
- Uses industry tools: Git, Visual Studio Code, MS Visio, MS Office
- Solid foundations in Agile practices, SDLC, and technical documentation (SRS/SSD)
- Self-motivated and adaptable learner who actively learns new tools, languages, and frameworks to elevate project quality.

EDUCATION

Game – Programming (Co-op) Advanced Diploma Sept. 2025 - Present
Centennial College, Toronto, ON

- **Relevant Courses:**

Web Interface Design	Python Programming	C# Programming
Database Concepts (SQL)	Client-Side Web Development	Java Programming
Assets for Game Developers	Unix/Linux OS	2D Games with Unity & C#
Software Requirements	Web Application Development	Game & Simulation
Software System Design		

SELECTED PROJECTS

Web Game – Bug Catcher Mar. 2026

- Built an interactive, timed browser game using HTML, CSS, JavaScript with dynamic score and timer mechanics.
- Applied a logic-first approach by engineering and testing core JavaScript game state management prior to UI styling.

Game Jam Entry – Shovel Jam 2025 (itch.io) Jul. 2025

- Engineered player locomotion, custom object physics, and event-driven state logic in Unity using C#
- Designed, scripted and published a game independently within a 9-day game jam timeline.
- Managed feature scoping to prioritize core gameplay loops and deliver a stable release on schedule

WORK EXPERIENCE

Food Service Associate Dec. 2021 - Present
Burger King, Toronto, ON

- Multi-tasked across high-pressure environments, managing concurrent food preparation and customer service tasks, maintaining high order accuracy.
- Collaborated within a 3+ person team using clear communication to coordinate food production pipelines and meet strict performance metrics.
